

6th Grade Monthly Times: October

WHAT'S HAPPENING ...

History: We will be wrapping up Ancient Greece and moving into Ancient Rome.

Science: Using what we learned about the earth and plate tectonics we will be learning about earthquakes.

Language Arts: We will continue to work on StudySync, accessed through [McGraw-Hill Education - Login](#), but students have also received their StudySync book they can use to help them.

Writing: In writing we will be moving on to organization.

Grammar: We will continue with Shurley Grammar.

Math: Daily homework is assigned, and should be completed and turned in on time.

A NOTE FROM THE TEACHER

As we speed into October first quarter comes to a close with that, remember second quarter is a new start to be on top of things. "With great power come great responsibility."

The homework policy will be updated at the start of second quarter for the rest of the year. We will speak on this at conferences, but all work must be turned in on time or receive a zero.

Around the School

Oct. 3- Count Day, free dress
