

22 February 2023

Dear CSCA Families,

As many of you know, the CSCA Board took formal action this past week to remove two of its Board members. These actions were taken with thoughtful care and intention, while listening to our parents and staff, toward healing and closure. CSCA's Board strives to move forward with unity, focusing steadfastly on CSCA's strong reputation for academic excellence, accountability, and personal responsibility.

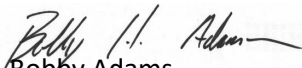

The CSCA Board will now appoint two new Board members, who will serve until the school undertakes its annual school board election in October. If you are interested in a Board appointment, please notify the Head of School or speak with one of your school board members. We seek to fill the vacant Board seats by the end of February.

The CSCA Board is currently finalizing its strategic plan for the short and long-term future of CSCA. We greatly appreciate the input we've received through the public SWOT meetings, and we are excited to share this finalized plan with our families in late Spring. This plan will guide the Board as it rebuilds CSCA's reputation in our city and at the state. It will also help us to prioritize facility maintenance and upgrades, curricula and staffing enhancements, and how we can provide the best learning environment for our students.

Thank you for your commitment to CSCA and for trusting us to provide an excellent education for your children. This trust is invaluable to us, and we will work diligently to continue earning your trust as we grow and thrive as a charter school of excellence.

Our best to each of you.

The CSCA Board

Bobby Adams
President

Jill Gaebler
Vice President
