The Colorado Measures of Academic Success (CMAS) is an assessment designed to measure student mastery of the Colorado Academic Standards. CMAS includes testing for English Language Arts, Math, Science, and Social Studies in grades 3 - 8. The CMAS assessment provides information to teachers as they incorporate the content standards in their daily instruction. These results are also used for school and district accountability.

By opting out, I recognize that I will not receive results of my child's achievement and growth as measured by these assessments. I also understand that educators use these results for instructional planning, class placement, and academic screening, and that this information will not be available to my child's educators.

**Please indicate which test(s) you are opting out of for the 2023-2024 school year. Please mark all that apply (you may opt-out of one or multiple subjects).**
